To: Local Superintendents and Principals
From: William J. Koran
Re: Textbook Adoptions

According to the ORC, Section 3329.08, at any regular meeting, the board of education of each local school district, from lists adopted by the educational service center governing board, and the board of education of each city and exempted village school district shall determine by a majority vote of all members elected which of such textbooks so filed shall be used in the schools under its control. No textbooks shall be changed, nor any part thereof altered or revised, nor any other textbook substituted therefore, within four years after the date of selection and adoption thereof, as shown by the official records of such boards, except by the consent, at a regular meeting, of four-fifths of all members elected thereto. Books so substituted shall be adopted for the full term of four years.

The Medina County Schools' Governing Board, meeting in regular session, adopted the attached lists of textbooks. By law, the textbooks used in the local districts must be on this list if they are used as basic texts. I understand that various districts may desire to use other texts as supplemental materials; these do not have to be on the list if used in a supplemental role.

However, when the schools are evaluated by the State Department of Education, a careful check to see that all basic texts are on the county adopted list will be made. It is not the intent of the Governing Board to dictate that a single text be used in the locals. After careful study by committees of teachers, administrators, and consultants, the locals will be presented a list of basic texts from which to choose.

The County adopted list will be from the State approved list.

A program establishing textbook study committees has been devised. The intent is to: a) be sure we have a continuity of study on textbooks, b) be sure that all school districts have fair representation in the selection of basic texts, and c) provide a method for experimental or pilot projects to be tried by a district or districts and still meet the State law. This program was implemented with the beginning of the 1976-77 school year.

Please note that all textbooks for Grades PreK-8 are included in the elementary section of this booklet, and those for Grades 9-12 are in the secondary section. This matter is of particular importance to those of you in the junior high/middle school buildings.

If you have any questions concerning this matter, please feel free to call me.

PREFACE

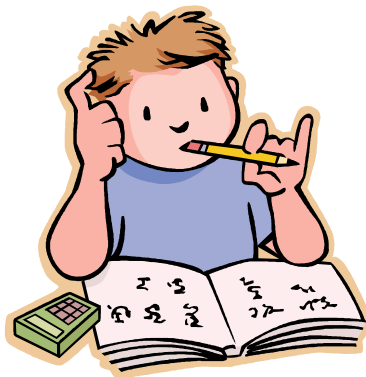

The State Law of Ohio requires the County Educational Service Center Governing Board to present lists of textbooks for adoption to local boards of education in the county school system.

The textbooks herein have been studied by committees of parents, teachers, principals, and education consultants. The Medina County Schools' Governing Board has accepted their recommendations.

This booklet contains recommendations for elementary and secondary texts to be used in the Medina County Schools.
